Professional profile

Passionate about cinema and committed to using technology as a powerful storytelling tool, I bring experience in the VFX industry, understanding its high-quality standards and demands. Currently focused on building cloud infrastructures to meet the evolving computational needs driven by machine learning advancements, I excel at optimizing digital workflows, developing scalable solutions, and integrating cutting-edge technologies to elevate VFX pipelines.

Experience

VFX PIPELINE TD – COMPOSITOR AT ATOM STUDIOS
AUGUST 2023 – PRESENT

Building the studio pipeline, implementing a local rendering system with Deadline and developing a cloud system to expand computing power on demand for machine learning tasks.

VFX DIGITAL COMPOSITOR AT ELEMENTAL VFX
JANUARY 2023 – JULY 2023

Tasks such as Cleanup, rotoscoping, matchmove were worked on, for an Amazon Prime series.

POST PRODUCTION LEAD AT FEEDBACK STUDIO
DICEMBER 2019 – AUGUST 2022

VFX techniques were used with Blender and After Effects in creative advertising projects.

DIRECTOR AT UNIVALLE FILMS
JUNE 2019 – DICEMBER 2019

The first webseries for the prevention of violence in Latin America was produced, broadcast nationally on the ATB network.

```
user@sergio~$ docker-compose up -d
starting cv...
```
